Author Index—Volume 49

Andrews, Patricia L.;
Estimating slope for predicting fire behavior.
49(3):16–18.

Bailey, Dan W.;
NFPA to establish wildland fire section.
49(1):30–31.

Benedict, Gene;
New McCall smokejumper base dedication planned.
49(2):33.

Bethea, John M.;
Role of social science in the urban/wildland complex.
49(1):22–24.

Brandel, Kimberly; Mike Rogers; Gordon Reinhart;
Fire management in Israel.
49(3):34–37.

Brandel, Kimberly A.;
The National Fire Management Analysis System: flexible tool.
49(1):26–28.

Burgan, Robert E.; Ronald A. Susott;
Correcting an error in the HP-71B fire behavior CROM.
49(2):31–32.

Burns, John R., Jr.;
Georgia's fire simulator.
49(3):12–13.

Burzynski, Roberta M.;
Celebrating research accomplishments at the Forest Fire Laboratory.
49(2):25.

Carroll, Frank;
"So, ya wanna make a movie?"
49(2):10–12.

Chaffee, Rod; Francis Mohr;
Contracted fire detection services—a savings.
49(4):27–29.

Corn, Troy;
Wildland Interagency Engine: a pilot program.
49(3):28–29.

Croft, Harry;
Model for workforce diversity.
49(1):29.

Deeming, John E.;
Fire-danger rating: the next 20 years.
49(4):3–8.

Dipert, Duane; John R. Warren;
Mapping fires with the FIRE MOUSE TRAP.
49(2):28–30.

Dzuranin, Dan;
McCall smokejumper base dedication.
49(4):16–17.

Freyer, Don C.;
The Georgia Rural Fire Defense program.
49(3):22–23.

Fuchs, Fred A.;
Fire protection project in China.
49(3):3–7.

Gagen, Michael H.;
Wyoming engine strike teams.
49(1):25.

Glen, John Mason;
The Florida Division of Forestry helicopter program.
49(2):6–7.

Greene, J.P.;
Wildland fire engine standards.
49(4):13.

Haines, Donald A.;
Downbursts and wildland fires: a dangerous combination.
49(3):8–10.

Harbour, T.C., Jr.;
Leadership strategies for incident management teams.
49(1):10–12.

Hirsch, Kelvin G.;
An overview of the 1987 Wallace Lake Fire, Manitoba.
49(2):26–27.

Hunter, John E.;
Prescribed burning for cultural resources.
49(2):8–9.

Knowlton, Linda;
Teaching old dogs new tricks.
49(4):18–20.

Latham, Don J.;
Artificial intelligence applications to fire.
49(2):3–5.

Lunsford, Jim;
Wilderness fire management in Region 8.
49(1):3–7.

Martin, George G.;
Fuel treatment assessment—1985 fire season in Region 8.
49(4):21–24.

Martini, William B.;
Let's stop fighting forest fires.
49(3):38–39.

Miller, James;
Railroad fire prevention course.
49(3):19–20.

Paul James T.; Robert C. Thatcher;
A new approach to fire research in the South.
49(1):16–17.

Peterson, Janice L.;
Using NFDRS-predicted 1000-hour fuel moisture as a daily management tool.
49(4):9–12.

Quintilio, Dennis; Peter J. Murphy; Paul M. Woodard;
Production guidelines for initial attack hotspotting.
49(3):24–27.

Reinhardt, Elizabeth D.; Kevin C. Ryan;
How to estimate tree mortality resulting from underburning.
49(4):30–36.

Rouse, Cary; Donna Paananen;
A quick method to determine Northeastern woody fuel weights.
49(2):23–24.

Riley, Douglas J.;
Know thy neighbor—the key to unified command.
49(1):8–9.

Schlobohm, Paul; Ron Rochna;
An evaluation of foam as a fire suppressant.
49(2):16–20.

Sibayan, Emilio R.;
Communications cooperation: wildland fire agencies in the Northwest.
49(4):14–15.

Smith, Linda; Bonnee Turner;
Fire is the tie that binds.
49(1):13–15.

Stoddard, Maynard;
Celebrity wildfire prevention.
49(3):11.

Terrill, Ken; Greg Krumbach;
South Dakota strike teams help fight California fires.
49(2):21–22.

Terry, Bill;
Building a command post that is mobile.
49(2):13–15.

Terry, Bill;
Texas big country fire puts ICS to the test.
49(4):38–40.

Trask, Art;
Helicopter foam system.
49(4):25–26.

Weeden, Paul J.;
Fourth international forest firefighting course.
49(3):32–33.

Whitson, James B.;
Interagency regional training groups.
49(3):14–15.

Wilson, Jack F.;
The wings of fire.
49(1):18–21.

Subject Index—Volume 49

Aviation

The Florida Division of Forestry helicopter program.
John Mason Glen.
49(1):6–7.

Helicopter foam system.
Art Trask.
49(4):25–26.

The wings of fire.
Jack F. Wilson.
49(1):18–21.

Cooperation

Fire protection project in China.
Fred A. Fuchs.
49(3):3–7.

Know thy neighbor—the key to unified command.
Douglas J. Riley.
49(1):8–9.

Fire is the tie that binds.
Linda Smith and Bonnee Turner.
49(1):13–15.

A new approach to fire research in the South.
James T. Paul and Robert C. Thatcher.
49(1):16–17.

Wyoming engine strike teams.
Michael H. Gagen.
49(1):25.

Model for workforce diversity.
Harry Croft.
49(1):29.

NFPA to establish wildland fire section.
Dan W. Bailey.
49(1):30–31.

South Dakota strike teams help fight California fires.
Ken Terrill and Greg Krumbach.
49(2):21–22.

Interagency regional training groups.
James B. Whitson.
49(3):14–15.

The Georgia Rural Fire Defense program.
Don C. Freyer.
49(3):22–23.

Wildland Interagency Engine: a pilot program.
Troy Corn.
49(3):28–29.

Fourth international forest firefighting course.
Paul J. Weeden.
49(3):32–33.

Fire management in Israel.
Kimberly Brandel, Mike Rogers, and Gordon Reinhart.
49(3):34–37.

Let's stop fighting forest fires.
William B. Martini.
49(3):38–39.

Wildland fire engine standards.
J.P. Greene.
49(4):13.

Communications cooperation: wildland fire agencies in the Northwest.
Emilio R. Sibayan.
49(4):14–15.

Equipment and Computer Systems

The wings of fire.
Jack F. Wilson.
49(1):18–21.

Wyoming engine strike teams.
Michael H. Gagen.
49(1):25.

The National Fire Management Analysis System: flexible tool.
Kimberly A. Brandel.
49(1):26–28.

Artificial intelligence applications to fire.
Don J. Latham.
49(2):3–5.

The Florida Division of Forestry helicopter program.
John Mason Glen.
49(2):6–7.

Building a command post that is mobile.
Bill Terry.
49(2):13–15.

An evaluation of foam as a fire suppressant.
Paul Schlobohm and Ron Rochna.
49(2):16–20.

South Dakota strike teams help fight California fires.
Ken Terrill and Greg Krumbach.
49(2):21–22.

Mapping fires with the FIRE MOUSE TRAP.
Duane Dipert and John R. Warren.
49(2):28–30.

Correcting an error in the HP–71B fire behavior CROM.
Robert E. Burgan and Ronald A. Susott.
49(2):31–32.

Georgia's fire simulator.
John R. Burns, Jr.
49(3):12–13.

Railroad fire prevention course.
James Miller.
49(3):19–20.

The Georgia Rural Fire Defense program.
Don C. Freyer.
49(3):22–23.

Wildland Interagency Engine: a pilot program.
Troy Corn.
49(3):28–29.

Wildland fire engine standards.
J.P. Greene.
49(4):13.

Communications cooperation: wildland fire agencies in the Northwest.
Emilio R. Sibayan.
49(4):14–15.

Teaching old dogs new tricks.
Linda Knowlton.
49(4):18–20.

Helicopter foam system.
Art Trask.
49(4):25–26.

Fire Behavior

A New Approach to fire research in the South.
James T. Paul and Robert C. Thatcher.
49(1):16–17.

Downbursts and wildland fires: a dangerous combination.
Donald A. Haines.
49(3):8–10.

Estimating slope for predicting fire behavior.
Patricia L. Andrews.
49(3):16–18.

Fire-danger rating: the next 20 years.
John E. Deeming.
49(4):3–8.

Using NFDRS-predicted 1000-hour fuel moisture as a daily management tool.
Janice L. Peterson.
49(4):9–13.

Fuels

Wilderness fire management in Region 8.
Jim Lunsford.
49(1):3–7.

Prescribed burning for cultural resources.
John E. Hunter.
49(2):8–9.

A quick method to determine Northeastern woody fuel.
Cary Rouse and Donna Paananen.
49(2):23–24.

Estimating slope for predicting fire behavior.
Patricia L. Andrews.
49(3):16–18.

Production guidelines for initial attack hotspotting.
Dennis Quintilio, Peter J. Murphy, and Paul M. Woodard.
49(3):24–27.

Fuel treatment assessment—1985 fire season in Region 8.
George G. Martin.
49(4):21–24.

How to estimate tree mortality resulting from underburning.
Elizabeth D. Reinhardt and Kevin C. Ryan.
49(4):30–36.

General Fire Management

Wilderness fire management in Region 8.
Jim Lunsford.
49(1):3–7.

Role of social science in the urban/wildland complex.
John M. Bethea.
49(1):22–24.

Model for workforce diversity.
Harry Croft
49(1):29.

NFPA to establish wildland fire section.
Dan W. Bailey.
49(1):30–31.

Artificial intelligence applications to fire.
Don J. Latham.
49(2):3–5.

Prescribed burning for cultural resources.
John E. Hunter.
49(2):8–9.

Celebrating research accomplishments at the Forest Fire Laboratory.
Roberta M. Burzynski.
49(2):25.

An overview of the 1987 Wallace Lake Fire, Manitoba.
Kelvin Hirsch.
49(2):26–27.

Correcting an error in the HP-71B fire behavior CROM.
Robert E. Burgan and Ronald A. Susott.
49(2):31–32.

New McCall smokejumper base dedication planned.
Gene Benedict.
49(2):33.

Fire protection project in China.
Fred A. Fuchs.
49(3):3–7.

Downbursts and wildland fires: a dangerous combination.
Donald A. Haines.
49(3):8–10.

McCall smokejumper base dedication.
Dan Dzuranin.
49(4):16–17.

Teaching old dogs new tricks.
Linda Knowlton.
49(4):18–20.

Contracted fire detection services—a savings.
Rod Chaffee and Francis Mohr.
49(4):27–29.

How to estimate tree mortality resulting from underburning.
Elizabeth D. Reinhardt and Kevin C. Ryan.
49(4):30–36.

Presuppression

Know thy neighbor—the key to unified command.
Douglas J. Riley.
49(1):8–9.

Leadership strategies for incident management teams.
T.C. Harbour, Jr.
49(1):10–12.

Role of social science in the urban/wildland complex.
John M. Bethea.
49(1):22–24.

The National Fire Management Analysis System: flexible tool.
Kimberly A. Brandel.
49(1):26–28.

"So, ya wanna make a movie?"
Frank Carroll.
49(2):10–12.

Building a command post that is mobile.
Bill Terry.
49(2):13–15.

A quick method to determine Northeastern woody fuel weights.
Cary Rouse and Donna Paananen.
49(2):23–24.

Celebrating research accomplishments at the Forest Fire Laboratory.
Roberta M. Burzynski.
49(2):25.

New McCall smokejumper base dedication planned.
Gene Benedict.
49(2):33.

Celebrity wildfire prevention.
Maynard Stoddard.
49(3):11.

Railroad fire prevention course.
James Miller.
49(3):19–20.

Fire management in Israel.
Kimberly Brandel, Mike Rogers and Gordon Reinhart.
49(3):34–37.

McCall smokejumper base dedication.
Dan Dzuranin.
49(4):16–17.

Fuel treatment assessment—1985 fire season in Region 8.
George G. Martin.
49(4):21–24.

Contracted fire detection services—a savings.
Rod Chaffee and Francis Mohr.
49(4):27–29.

Prevention

Georgia's fire simulator.
John R. Burns, Jr.
49(3):12–13.

Celebrity wildfire prevention.
Maynard Stoddard.
49(3):11.

Texas big country fire puts ICS to the test.
Bill Terry.
49(4):38–40.

Suppression

An overview of the 1987 Wallace Lake Fire, Manitoba.
Kelvin Hirsch.
49(2):26–27.

An evaluation of foam as a fire suppressant.
Paul Schlobohm and Ron Rochna.
49(2):16–20.

Mapping fires with the FIRE MOUSE TRAP.
Duane Dipert and John R. Warren.
49(2):28–30.

Production guidelines for initial attack hotspotting.
Dennis Quintilio, Peter J. Murphy, and Paul M. Woodard.
49(3):24–27.

Fire-danger rating: the next 20 years.
John E. Deeming.
49(4):3–8.

Using NFDRS-predicted 1000-hour fuel moisture as a daily management tool.
Janice L. Peterson.
49(4):9–12.

Training

Leadership strategies for incident management teams.
T.C. Harbour, Jr.
49(1):13–15.

Fire is the tie that binds.
Linda Smith and Bonnee Turner.
49(1):13–15.

"So, ya wanna make a movie?"
Frank Carroll.
49(2):10–12.

Interagency regional training groups.
James B. Whitson.
49(3):14–15.

Fourth international forest firefighting course.
Paul J. Weeden.
49(3):32–33.

Let's stop fighting forest fires.
William B. Martini.
49(3):38–39.

Texas big country fire puts ICS to the test.
Bill Terry.
49(4):38–40.
